

Destined to Deliver

A complete logistics solution

Transport

We tailor our transport services to the individual needs of each customer, offering cost-effective transport solutions for consignments of any size.

Distribution

We incorporate part-load and groupage consignments, and both palletised and non-palletised freight, into our nationwide distribution network.

Storage and distribution services tailored to your requirements

Warehousing

Spanning over 250,000 sq.ft. across two sites, our warehousing facilities are fully certified by BRC and the Soil Association for organic storage.

Transport

As a reputable and well-respected third-party UK logistics company, our transport services exist as the foundation of the Fagan & Whalley operation.

Transport and road haulage is what we've known for nearly 100 years, and throughout that time our core focus has always remained the same; to provide versatile transport solutions for every customer, and to nurture productive, long-standing working relationships.

With a large fleet of vehicles operating from our strategically located depots across Lancashire and the Midlands, our ability to react to customer requirements and offer flexible, tailored, and specialised logistics solutions is proven.

Our team of experienced transport planners and logistics professionals are entirely committed to developing strategies in accordance with the needs of each client, utilising our shared-user and dedicated transport facilities to ensure consignments of all sizes - both palletised and non-palletised - are incorporated into our network.

- Contract management
- Technology-driven
- Consignments of any size
- Dedicated and groupage services
- Fleet of over 170 vehicles

Distribution

Our distribution network offers comprehensive operational flexibility to any supply chain, including part-load consignments.

Our proven record of understanding customer requirements and product profiles allows us to provide flexible and cost-effective delivery solutions which are tailored to each individual client.

With a large consolidation centre at the core of our network, all groupage freight is incorporated into our cross-dock facility, where it is overseen by our transport planners, consolidated and loaded onto a vehicle in our in-house fleet, ready for distribution across the UK.

We use the very latest technology to plan the loads and journeys of our vehicles, ensuring efficiency in both areas. Our online customer portal also provides a space for our customers to track the progress of each of their consignments, offering integration and status visibility from order entry through to invoice.

- UK-wide distribution
- Palletised & non-palletised freight
- Part loads and groupage freight
- Part of the Palletforce network
- Progress tracking via online portal

Warehousing

With a large capacity for both palletised and non-palletised goods, our fully certified storage facilities span 250,000 sq.ft across two sites, and are offered for storage alone, or as part of a complete logistics solution.

Our warehousing facilities are fully certified by BRC and the Soil association for organic storage, providing reassurance to our clients that the highest level of service is consistently achieved, regularly monitored, and thoroughly maintained.

Committed to servicing customers in all sectors, our systematic approach sees our teams create client-tailored solutions, with the flexibility to provide anything from bulk storage of non-palletised goods, to a fully managed stock control and order fulfilment system.

- BRC-certified
- Organic storage
- Detailed stock management
- Order fulfilment
- Supply chain management

Training

Our centre for excellence offers modern training facilities, hosting Driver CPC for both theory and practical training.

Accommodating both new and experienced drivers, our professional driver training courses are detailed and thorough, providing students with all the knowledge required to operate a specialist vehicle safely.

With professional training programmes for Driver CPC qualifications, as well as forklift and warehouse training and LGV certifications, our courses are managed by our dedicated team of in-house, DVSA and RTITB-approved instructors, going beyond the basics to ensure delegates leave with the knowledge, skills, and commitment to safety that our industry demands.

- LGV & forklift truck training
- Dedicated training vehicles
- DVSA and RTITB-approved instructors
- One-to-one driver training
- 90% pass rate
